

WHY CHOOSE NZGRINDERS?

www.nzgrinders.co.nz

Customer Focused – we work with you to match your vision for your project. We listen.

Quality Concrete – we recommend and consult with you before and after the pour to ensure the best possible slab to create your polished floor.

On Time, On Budget – we complete work to the agreed schedule.

Expertise and Experience – our team is trained to the highest standard to create your perfect polished concrete floor.

Leading Edge Technology – hundreds of hours of testing our processes ensures exquisite results.

ADVANTAGES OF POLISHED CONCRETE FLOORS

DURABILITY

Polished concrete floors are the hardest, most durable flooring surface you can install.

EASE OF CLEANING

Just vacuum and mop a polished concrete floor using Eco-friendly, non acidic cleaners. Spills can be wiped with a soft cloth without staining.

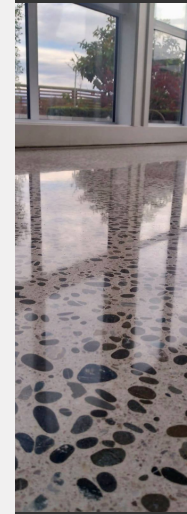

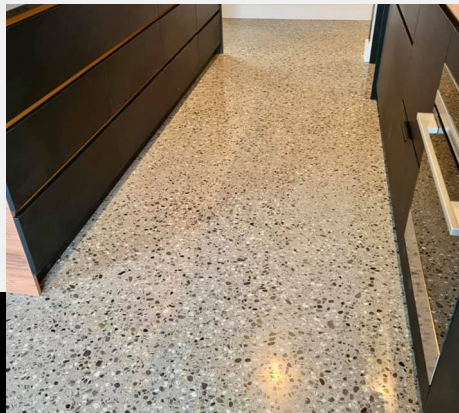

ENERGY EFFICIENT

Polished concrete floors help your house retain coolness in summer and warmth in winter, meaning you save on electricity use.

NON-ALLERGENIC

Polished concrete floors have a non-porous surface that's easy to clean, meaning there is no place for bugs or allergens to hide.

DIAMOND POLISHED FLOORING OPTIONS

FULL GRIND

HIGH POLISH FINISH

The preferred option. Full stone exposure. The most recognisable and preferred option.

MODERATE

MEDIUM EXPOSURE

A traditional and cost effective diamond polish with great random stone exposure.

SALT & PEPPER

LIGHT EXPOSURE FINISH

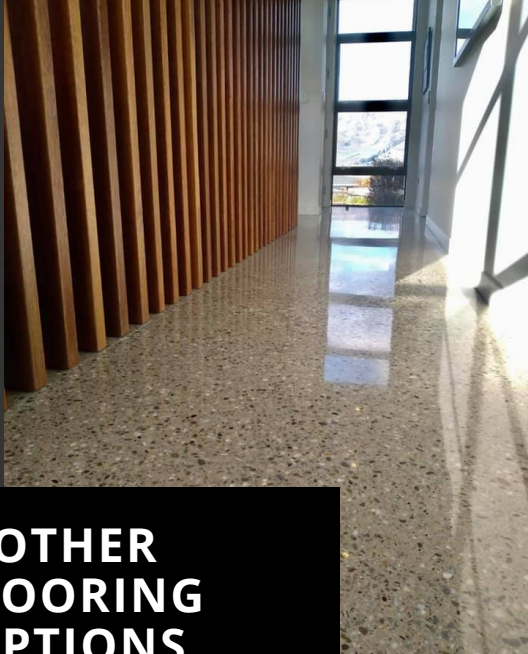

A classic finish. A light grind and diamond polish allows the natural contour of the floor and aggregate to show

MARBLE

PLAIN EXPOSURE

A lighter, streamlined exposure for a natural concrete look. A resin diamond polish with a satin or high gloss finish.
